A drug called REMDESIVIR, manufactured by Gilead Sciences, now being reported as the ultimate CURE for COVID-19.

Dr Anthony Fauci

## IT GETS INTERESTING

The patent for Remdesivir is currently held by China, through an agreement with Gilead™ a drug patent sharing subsidiary, called UNITAID which just happens to have an office near Wuhan, China. Can you guess who some major financial investors in UNITAID might be? You don't know?

Well, how about none other than George Soros, Bill & Melinda Gates, and the WHO (World Health Organization). I know what you're thinking! Just coincidence! Well, here's another coincidence. Both, Gilead Sciences and UNITAID were financial backers of Hillary Clinton in the last election. And another coincidence. Dr. Fauci authorized millions of American dollars to be sent to The Wuhan Institute of Virology in China, specifically for the study of Coronaviruses. Oh, did I mention that Dr. Fauci's wife works for Gilead Sciences? What do you think? Just coincidences! Nothing to see here folks, just keep moving. It's no wonder Dr. Fauci slapped down hydroxychloroquine, which is inexpensive, has been around for over 60 years with a proven safety record, even though its success rate was very favorable. Why? Because he was told to! And the news media backed him up all the way. It's amazing what you find when you just follow the money.

Here's a link to the full, very thorough report. Do you detect political considerations? Just a coincidence:... Just a reminder! A Thicker than thieves all in the family:

## CANNOT BE REVERSED !

Dr. Margarite Griesz-Brisson MD, PhD is a Consultant Neurologist and Neurophysiologist with a PhD in Pharmacology, with special interest in neurotoxicology, environmental medicine, neuroregeneration and neuroplasticity. This is what she has to say about masks and their effects on our brains:

“The rebreathing of our exhaled air will without a doubt create oxygen deficiency and a flooding of carbon dioxide. We know that the human brain is very sensitive to oxygen deprivation. There are nerve cells for example in the hippocampus, that can’t be longer than 3 minutes without oxygen – they cannot survive. The acute warning symptoms are headaches, drowsiness, dizziness, issues in concentration, slowing down of the reaction time – reactions of the cognitive system.

However, when you have chronic oxygen deprivation, all of those symptoms disappear, because you get used to it. But your efficiency will remain impaired and the under supply of oxygen in your brain continues to progress.

We know that neurodegenerative diseases take years to decades to develop. If today you forget your phone number, the breakdown in your brain would have already started 20 or 30 years ago.

While you’re thinking, that you have gotten used to wearing your mask and rebreathing your own exhaled air, the degenerative processes in your brain are getting amplified as your oxygen deprivation continues.

The second problem is that the nerve cells in your brain are unable to divide themselves normally. So in case our governments will generously allow us to get rid of the masks and go back to breathing oxygen freely again in a few months, the lost nerve cells will no longer be regenerated. What is gone is gone. 🤖
